Purpose
This notice is to inform you that the California Energy Commission staff will hold a staff workshop to discuss the proposed Quail Brush Generation Project (QBGP). The purpose of the workshop is to provide a public forum for staff, the project applicant, intervenors, members of the public and agencies interested in the proposed project, to discuss air quality modeling issues related to the QBGP Application for Certification (11-AFC-3). Specifically, staff will discuss potential impacts related to nitrogen dioxide (NO2) emissions, cumulative impacts and proposed mitigation measures.

Additionally, the workshop will provide a forum for members of the public to comment on or ask questions about the proposed QBGP and staff's ongoing environmental review of the project, especially comments or questions related to air quality, since technical experts in that area will participate in the workshop. All interested parties, interested agencies and members of the public are invited to participate.
